

Leadermac USA is pleased to announce Tom Milldhall has rejoined our team!

Tom Milldhall

Tom offers many years of experience in the woodworking industry, particularly with moulders and profile grinders. His key role will be to improve service and support for our Moulder Customers. He has been trained at the Leadermac factory, and is here to answer any questions and provide assistance with any issues that arise.

Based out of our head office, Tom is available for technical phone assistance, as well as helping on site service. Tom will coordinate our moulder service technicians, follow up on your installation to ensure you are satisfied, and determine whether you need anything further to ensure a good installation.

Tom will also assist in the monitoring of our parts inventory to ensure we have the items you need in stock at the time you need them.

We are confident this addition to our Leadermac USA team will benefit all of our valued clients.
